TIPPLE FIRED ON

Attackers Shoot Across Tug River at Men Guarding Borderland Mine

Williamson, W. Va., July 15.—Persons concealed in the dense undergrowth of the mountains on the West Virginia side of Tug river, 5 miles north of here, yesterday attacked the tipple of the Borderland Coal Company on the Kentucky side. The fire was returned by men on guard at the mine, which is in the Mingo strike district. Reports received late yesterday after noon said there had been no casualties.

A posse was quickly organized by Mingo county authorities and hurried to the scene of the fighting. Boodhounds were taken should it become necessary to trail the attacking party through the woods.

Borderland was the scene of a similar attack last week, shots having been fired over the little village on the West Virginia side into the coal tipple high up on the Kentucky mountain.

Other parts of the Mingo county field, where miners are striking to enforce recognition of the union, are reported to be quiet.

George R. C. Wiles, member of the West Virginia Public Service Commission, who was indicted by the special grand jury which reecntly investigated the Matewan troubles, was cleared of unlawful action in court here today, when Judge Dameron sustained a demurrer to the indictment filed by Mr. Wiles' counsel.

Judge Daemron held that even though the allegations contained in the indictment should prove to be true, they did not constitute an offense against the laws of West Virginia. Mr. Wiles was charged with offering money to J. P. Webb, Deputy Sheriff, to be used in inducing mine organizers to leave Mingo county.

RAILWAY MEN STRIKE

Workers Decline to Move Freight Trains Carrying War Material

Dublin, July 15.—The railway situation in Ireland was never so grave from the government's viewpoint as yesterday, when the workers refused to move freight trains carrying any sort of war material, andSinn Feiners kidnapped 5 men who offered to move the trains after the others had declined.

The policy of dismissing recalcitrant employees, which Sinn Feiners say is directed by the government, is rapidly depleting the ranks of the railway workers and resulting in additional traffic stoppage.

BLOODHOUND EVIDENCE

Danville, Va., July 15.—William Boyd, a negro, who was arrested after bloodhounds had trailed him from a store which had been robbed, has been discharged from custody by Mayor Wooding, who held that the uncorroborated evidence of bloodhounds was not sufficient to warrant holding the accused. Boyd denied knowledge of the crime and none of the stolen goods was discovered. The police sought to support the evidence of the dogs by showing that a pair of shoes in Boyd's house, at which the dogs stopped, fitted exactly tracks made in the earth near the store window.

Laugh, and you're called a fool.
Yield, and you're called a coward,
Stand, and you're called a mule.
Smile, and they'll call you silly,
Frown, and they'll call you gruff.
Put on a front like a millionaire
And some one'll call your bluff.

EXTEND TIME FOR ENTRIES TO JULY 19

Sunday Schools Plan Athletic Meet at Fairfax July 24

LIST OF EVENTS READY

Meet is for Boys and Girls Between 16 and 22 Years—Banners to Individual and School Winning

The district Sunday school athletic meet to be held at Fairfax Saturday, July 24, promises to be an unusually attractive affair. Mrs. C. M. Israel, of Fairfax, who is district superintendent of the intermediate age of the Sunday school of the district has just written the Y. M. C. A., of Alexandria that the entries are coming in rapidly.

Mr. Wallace of the Y. M. C. A. is chairman of the athletic committee and some time ago drafted the list of events for the affair and will go to Fairfax to assist in running off the events. The meet is for both boys and girls between the ages of sixteen and twenty-two and as some handsome banners are offered the association and individual school winning the most points, it is assured that Alexandria schools will be well represented.

The entry blanks have been put in the hands of the local schools but as the blanks were late in arriving here Mr. Wallace has granted an additional week to get them in, so that if they are mailed Monday, July 19, they will be accepted, although it says on the blanks that they must be in by the 12th.

Some of the high school athletes are said to be entering and A. H. S. may have a great deal to do with deciding where some of the honors will go. Midkiff, one of the A. H. S., star sprinters is said to be considering the meet and doubtless many of the girls and boys will constitute a challenging squad from this city.

Secretary Wallace of the Y. M. C. A., left this morning for a few days outing at the beach but intends to return before the athletic meet. His family accompanied him and he is said to have left on the order of his family physician.

The men appeared before United States Commissioner Lewis and entered bail for a further hearing, which the Commissioner set for Monday afternoon.

EXPECTS BRYAN TO AID

Cummings Says Democratic Candidates Will Campaign Actively

Salt Lake City, July 15.—Hints at the campaign plans of the Democratic presidential and vice presidential and vice presidential candidates were given in a statement yesterday by Homer S. Cummings, chairman of that party"s national committee, while here on his way East from San Francisco.

"I am sure both the Democratic candidates will get out and get acquainted and give the people a chance to get acquainted with them" he said.

"There will be a hard fight and the Republicans are admitting it, though they would not have done so a month ago.

"Mr. Bryan undoubtedly will fall in line. He was disappointed because there was not a prohibition plank in the platform, but one plat form is just as dry as the other. I am sure that Governor Cox, as President, will enforce the law scrupulously.

At a signal they poured their fire into the bolshevik ranks, quickly decimating the soviet troops.

MOONLIGHT EXCURSION

K. C., to be Host to Ladies—Plans For Show in Near Future

The Knights of Columbus at their meeting last night voted to invite the young ladies of St. Mary's Church, who so splendidly assisted them in their minstrel show a few weeks ago, to be their guests on the moonlight excursion to be given by St. Mary Church, the evening of July 29th. As this excursion promises to be a big success as a parish affair it is the intention of the Knights to make it a very enjoyable affair for their guests. Special instructions were given a committee to spare nothing in their efforts to entertain their guests in a suitable manner.

Arrangements are under way for the reproduction of the show at Colonial Beach and at the Country Club in the near future. The success of the show has caused a number of requests to be sent C. M. Horgan to repeat it again in this city. This matter is now being considered by the minstrel club but the majority seem to feel that it is best to wait and produce an entirely new show, and the matter of reproducing one of the latest New York successes on a royalty basis is being considered seriously. If this is done the affair will be staged in a bigger scale than ever attempted by any similar organization before. Special scenery will be built and proper costumes will be secured and it will be necessary to run show at least four nights to accommodate the people.

STRIKE VOTE BY WIRELESS

New York, July 15.—For the first time in the history of the labor movement a strike vote will be taken by wireless in the next day or two, when the members of the United Radio Telegraphers' Association will be called on to decide whether refusal of American shipowners to treat with them is to result in a strike.

The major portion of the association's 4,000 members are at sea, and the question will be transmitted from ship to ship by wireless. Decision to take this strike vote was reached at a meeting of the union's committee here today.

ANTI-LYNCHING SPLINTER

Brown's Declaration to 600 Colored Women Appealed to by Harding

Tuskegee Institute, Ala., July 15.—Six hundred negro women, attending the annual convention of the National Association of Colored Women, yesterday applauded Hallie Q. Brown, first vice-president, who charged that "while the Republican party is the party that has stood by us, it was noticeable at the Chicago convention that the platform committee reported not a plank, but a splinter against lynching."

MUST PAY FEDERAL TAX

Washington, July 15.—Virginia employers of children under 14 years old must pay the Federal tax of 10 per cent on the annual profits of their business despite the more lenient provisions of the State child labor law, which permits 12 year old children to work in canneries when school is not in session.

The bureau of internal revenue in announcing last night that the State law affords no protection from the Federal tax also said that the Federal government woud not accept State employment certificates to estrblish age. Employers are cautioned to keep on file, Federal certificates for all children on their pay rolls for the inspection of Federal agents.

The Federal tax is collectable, it was pointed out, wherever children under 14 years of age are employed at any time, or those between 14 and 16 are permitted to work after 7 p. m.

LAFOLLETTE AGAIN REFUSES TO SERVE

Third Political Party Faces Wreck at Beginning

NOMINATE UTAH MAN

Parley Parks Christensen Chosen as Standard-Bearer at Chicago This Morning.

Chicago, July 15.—Parley P. Christensen, of Utah, will carry the standard of the new third party, self-renamed the Farmer-Labor party, in the coming Presidential elections. He was nominated on the second ballot shortly before two o'clock this morning, over Dudley Field Malone, of New York. The vote was 192 1-2 to 174.6. On motion of R. E. Weinberger, of New York, the nomination was made unanimous.

Henry Ford, Jane Addams, and Eugene V. Debs, convict in the Federal penitentiary at Atlanta, and several other "fellow nominees" dropped out after the first ballot.

The nomination came after a stormy all day session marked by near riots over the adoption of a platform. The threatened withdrawal of the committee of Forty-eight, and the imminent splitting of the new party in the hour of its birth into two factions prepared for war to the knife.

Senator Robert M. La Follette, disgusted over the adoption of the Labor platform, refused to be a candidate. Nevertheless his name was presented, and received with cheers.

Less than an hour later, the Senator, through his son, sent a stinging message to the convention ordering his name withdrawn, and declaring, in the event of failure to do so, even if nominated, he would refuse to run.

Debs, through an official of the Socialist party, also requested the withdrawal of his name, declaring "even a ballot on him would be embarrassing."

Parley Parks Christensen is a lawyer of Salt Lake City. His career as a lawyer and organizer for some of the largest fraternal organizations has made him prominent throughout the West.

The radical platform declares, among other things, for:

A soldiers' bonus.

The initiative, referendum and recall.

Referendum—on all war unless this country actually is invaded.

Repeal of all espionage laws.

Withdrawal of U. S. troops from European invasion.

Election of Federal judges.

The public ownership and operation not only of the railroads but of stock yards and all public utilities.

The adoption of the Gompers labor program rejected by both old party conventions.

Recognition of the Irish and Russian Soviet republics and refusal by the U. S. to furnish arms or ammunition for blockading or invading them.

WOULD BE FOOD FOR REDS

Berlin Representatives Declare Invasion Will Be Like Lighted Match in Powder Magazine

Paris, July 15.—The German diplomatic delegation in Paris gave out the following exclusive statement tonight:

"If the allies want to invade the Ruhr district we are powerless to prevent them, but such a measure, involving the confiscation of coal, may be lighting a match to the powder mine of anarchy in Germany. The allied diplomats should not forget that the Soviet army is within a few forced marches from Warsaw.

"The Red peril therefore, is at the very gates of Germany, and should Germany be forced by the allies into a position where she is unable to resist the spread of anarchy to the Rhine, God help France and England."

WELCOME SHOWERS

The uncomfortable humid conditions of yesterday were followed toward the close of the day by copious rains, accompanied by thunder and lightning. Shower followed shower until a late hour at night, while the heavens were illumined by incessant flashes of lightning. The mercury in the thermometer in the meantime took a decided drop.

The rains seem to have stretched over a large area, as is shown by dispatches from various points in Maryland, Pennsylvania and elsewhere. In some places fatalities from lightning are reported.

There were light showers again today, which reminds us of the fact that this is St. Swithin's Day, which, according to the tradition, means Jupiter Pluvius will reign for 40 days.

So ladies may as well lay away their picture hats and the frills and bumbelows that go with sunny weather.

St. Swithin is supposed to have flourished about twelve hundred years ago. The well known weather myth is contained in the following lines:

St. Swithin's Day if thou dost rain
For forty days it will remain;
St. Swithin's Day if thou be fair
For forty days it 'twill rain na mair.

"CAT" AGAIN IN USE

British justice, it would seem, has made a step backward, for it has just been divulged that the institution of the whipping post has been revived in the United Kindom. From now on British criminals whose crimes do not merit capital punishment must confront the possibility of having a flogging administered to them, as well as imprisonment—a retrogression, it is said in defense of the step, necessitated by the unprecedented "crime wave," of which the newspapers of England have been complaining for the last six months or so.

The Daily Express heartily supports the principle of flogging, speaking in terms of the highest praise of the decision of the bench in the first case in point to arise, that of two men sentenced to five years penal servitude and, in addition, twenty strokes of the lash, for an attempted postoffice robbery, in which they terrified and menaced two women clerks who were on duty at the time. The lord chief justice upheld this decision on appeal, and of it the Express says: "Only the judges who administer the law can end this State of affairs. They must make their punishment fit the crimes; violence must be met with violence, the bully must be cowed."

FAMILY COW A CRIMINAL

A correspondent of a Baltimore paper thus ventilates his feelings:

Discovery of criminal intent and practice from the hitherto unsuspected comes to us with a shock of its own.

The rosy-faced apple, the gilded orange, the purple grape we know to be criminals under our Eighteenth Amendment.

A learned chemist now tells us that buttermilk is 3 per cent alcohol.

The family cow now goes before the grand jury.

This simple and lovable bovine, hitherto unsuspected and honored, has been turning out white lightning.

"Just as we were being instructed in the value of water as a fluid to drink, and all of us naively surprised to find that it, at least, tasted wet, we are thrown into confusion as we see what the Volstead law and William Jennings Bryan will do for milk. We can only see, with dismay, the beginning of a real 'back to the farm' movement and bootlegging milkmen!

"What are the alcoholic contents of breakfast foods, beefsteak and beans?

"The breakfast we eat may send us to the penitentiary, the baby's bottle is under suspicion. We have only wood alcohol and synthetic fruit juices of coal tar."

THE FAMILY GARDEN

The price of tomatoes this year is the highest known in Baltimore. Fairly large, ripe tomatoes are selling at 10 cents apiece, and the lowest priced, half green and no bigger than plums, bring 25 cents for four.

During the past three years numbers of persons in Alexandria and other cities have cultivated their back yards, growing potatoes, tomatoes, lima beans, snap beans, peas, beets, cucumbers, onions, etc., produce which generally sell at high water prices. People in our city are now gathering tomatoes from their own vines while this popular vegetable is bringing prices given above.

The utility of the family garden should long ago have been apparent to housekeepers. Should there be a general use of our back yards much could be done towards lowering the prevailing high cost of living. An hour or so given daily to our surplus ground would well repay us for our labor.

HOMICIDES AND HOT WEATHER

Is it the heat that has swelled the list of homicides?

There has been an extraordinary outbreak of homicidal mania of late. Nor has the motive been plain in every case. Jealousy or revenge or even greed instigates many murders. But so simple an explanation is not always possible. No small proportion of the murders chronicled recently have been apparently purposeless. There is, at least, little to show that they were premeditated. If they are the result of a mere impulse to kill, the origin of this impulse is a subject for deep thinkers to ponder over. No casual hypothesis will explain it.

The primitive remains in man in spite of conturies of civilization. Murder is the crime of all others which the conditions of modern society should discourage. One of the arguments in favor of prohibition was that it would reduce the number of crimes of violence; but this has not proved to be the case, though it is open to the prohibitionists to argue that the law has not yet been sufficiently enforced. Too much, however, may be made of the inciting cause. That would be less effective were not the offender predisposed for other reasons to take life. It will not do to put the whole blame on the thermometer either.—Philadelphia Inquirer.

AUTO DOES FLYING LEAP

Man Has Thrilling Experience on Road in Pennsylvania

Mainland, Pa., July 15.—A few spectators on the Sumneytown pike Tuesday afternoon saw a big touring car hurled completely across an old quarry hole on the pike above Gwynedd Square. The car hurtled through the air in most approved "movie" thriller fashion.

But the leap was not a "movie" stunt. The car is owned and was driven by Calvin H. Freed. The machine swerved from the road and skimmed across the quarry hole. It struck the opposite bank with force that it burled the driving rods on the sides of the car into the bank for a distance of two feet.

Freed escaped injury. The car was wrecked but the windshield was not broken. After the accident and the car had been wedged against the bank, Freed rolled twenty feet down an embankment into the quarry.

SIX ATROCIOUS MURDERS

Number of Attempts and Several Other Crimes Laid to Man Under Death Sentence

Berlin, July 15.—Schumann, characterized by the Vossische Zeitung as one of the cruelest and bloodiest murderers of all times, has been sentenced to death by a jury in the court of assizes at Berlin.

The jury found him guilty of six murders, eleven attempted murders and a number of other atrocities.

DECLARED MURDERED

Police Seek Person Who Threw Infant From Train

Chester, Pa., July 15.—That the baby boy found dying on the southbound track of the Pennsylvania Railroad Tuesday night was murdered by being deliberately thrown out of a car window, is the theory of the Chester police. The child, which was about three months old, died this morning in the Chester Hospital.

According to local railroad men, the child was tossed from a southbound flier, passing Lamokin station, in this city, at the rate of 50 miles an hour. The police got in touch with the authorities of Philadelphia, Wilmington, and Washington, but nothing has been learned that would connect anyone with the crime.

The Pennsylvania Railroad officials have started an investigation, and passengers, who were aboard the train from which the baby boy was tossed, are being checked up in an effort to get the one guilty of the crime. The police say the murderer did not know the locality through which the train was passing, evidently, as had they waited until the train had gone a few miles further on, the body could have been thrown where it would not have been so quickly discovered.

BAND BROKEN UP

Three Women Captured in Cleveland With 52 Quarts of Liquor

Cleveland, O., July 15.—A well organized whisky running campaign with regularly scheduled liquor smuggling trips, was nipped by police yesterday morning when vice squad officers arrested three women and five men at a railroad station, and confiscated 52 quarts of liquor. The liquor was contained in suit cases, which were found in possession of the women and which, police say, they brought to Cleveland from Pittsburgh and were delivering to the five men when arrested.

The women are said to have made scores of trips on a daily schedule before police interrupted the traffic.

All were booked on charges of violating the National Prohibition act. The three women and two of the men registered from Pittsburgh.

LIGHTNING KILLS CAMPER

Phila. Party on Connecticut Lake When Bolt Strikes Boat

Winstead, Conn., July 15.—Joseph Root, 46 years old, of Philadelphia, was killed and his wife and sister-in-law, Mrs. Shepard, of Philadelphia, were stunned when lightning hit a rowboat on North pond, at Southwick, Mass.

The three campers were in the middle of the pond when the storm broke, and when the bolt struck the boat Mr. and Mrs. Root were knocked unconscious. Mrs. Shepard said she felt the heat of the bolt as it struck. She revived Mrs. Root and both tried to revive Mr. Root, but he died before they could row to shore.

WANTS HUBBY A WIDOWER

Must Be Nice, With Dark Brown Eyes And Curling Lashes

Boston, July 15.—Bachelors and widowers—especially widowers—alert! The fond mama of a "loving and obedient" Lynn girl of 23, guaranteed to have "no foolish notions" is advertising for a husband for her daughter, claimed to be pretty in the bargain.

Preference will be given a widower, and especially one with a little child, it is announced. Other qualifications are stated to be a "nice disposition, and dark brown eyes with curling lashes."

The girl is Miss Lydia MacNeil, of 100 Newhall street. She hasn't said anything about herself as yet. Her mother, Mrs. Azro B. Allen, is the one who makes the above statements, Lydia admits, however, she "teased" her mama to help her find a beau. The latter, being a woman of practical mind, decided on publicity.

"Surely there is some good man who will appreciate a sweet, innocent girl who has never gone around with other fellows," the mother says. "She's a nice quiet girl with a loving disposition and it is my dearest wish to see her in a happy home. I know she can learn to love the right man. She would make a nice farmer's wife."

Applicants must be able to furnish the best of references.

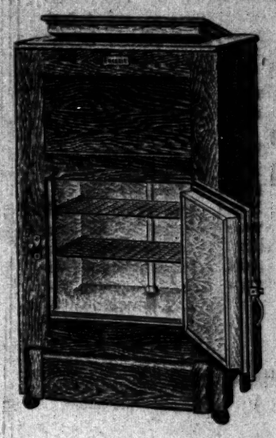
Refrigerators---Not A Luxury---A Necessity



In these days, when a threatened ice shortage is looked upon as a direct menace to every home in the community, it hardly seems possible that the refrigeration of food in household has come into common use within the memory of living men. But it is true.

Ice for refrigeration, now considered a necessity of life, was a luxury for ages. Wealthy Romans cooled their favorite wines, and the peacocks' tongues and other sumptuous dishes of their repasts, in mountain snow, brought to their tables at lavish cost.

In the Orient and the Mediterranean countries, now as in ancient times, large earthen jars are buried in the ground at night, or wrapped with wet cloths, to lower the temperature of their contents.

The use of ice for refrigeration has reached the highest stage of perfection in this country during the past few years and no home can well afford to be without the efficient services of a refrigerator.

We are showing three makes of refrigerators, each guaranteed to give absolute satisfaction in every respect and we ask you to inspect these three—

DENOUNCES LUXURY

Girls Raised In Idleness Menace Sect, Says Educator

Cape May, N. J., July 15.—Elbert Russell, of Swarthmore, Pa., a well-known educator, declared yesterday "single blessedness looms up as grave menace to the future of the Society of Friends" in an address at the final session of the Hicksite general conference.

"There is something radically wrong in the decreasing number of marriages among our young people," he said. "We are educating our daughters to grow up in luurious idleness on inherited wealth.

"Quakers are not passing along the call of God to their children. We are feeding the vanities of the girls rather than training them for wifehood and motherhood and a life of service."

HARDING'S STAND

G. O. P. Nominee Refutes Charge of Militants He Is "Pussyfooting"

Marion, Ohio, July 15.—"For myself and for the Republican party I earnestly desire that ratification of the suffrage amendment may be accomplished in time to give the whole body of American women the ballot next November," yesterday declared Senator Warren G. Harding, the Republican Presidential nominee.

In a straight-out, emphatic statement, the Senator cleared up his position on the suffrage question and answered charges by militant suffrage leaders that he had evaded the issue.

"I do not care a fig whether ratification is secured through a Republican or a Democratic State," he announced, "I will rejoice if North Carolina will do it, or if Tennessee will do it, just as I would rejoice if a Republican State did it."

RACE RIOTS FEARED

Armed Men Patrol Streets When Rumors of Negro Uprising Spread

Roxboro, N. C., July 15.—Rumors of a negro uprising to avenge the death of Red Roach, who was lynched last week by citizens of this town, have transformed Roxboro into an armed camp.

The town passed through a night of terror Tuesday night. Armed men patrolled the streets from midnight until daybreak.

The race feeling has been heightened, it is claimed, by the signed statement of Roach's employer, Nello Teer, a road contractor, that the man was innocent of the crime for which he was lynched.

Men who made up the lynching party assert that they made no mistake. Posted notices appeared through out Pearson County warning Teer not to come across the county line because of the feeling against him among the white citizens.

Teer has employed counsel at Reidsville, N. C., to inquire into the lynching. He claims that the county authorities gave the prisoner no protection from the mob.

FRENCH FLAG TORN DOWN

Berlin, July 15.—An unknown person removed the French flag hoisted yesterday over the French embassy in honor of the anniversary of the taking of the Bastille.

M. de Marcilly, French charge d'affaires in Berlin, formally protested to the German government.

The French flag was raised during the morning. Several mobs which gathered were easily dispersed, but shortly after noon some one entered the embassy, climbed to the roof, removed the flag and disappeared with it. Another flag was raised and there was no further incident.

Armed Occupation of Ruhr District Avoided by Germany Yielding

London, July 15.—With the alternative of yielding on the question of coal delivery or having the Ruhr district occupied by allied troops, the German envoys at Spa, Belgium, late last night gave way once more and again afforded a resplte to threatened grave events in Europe.

The Germans have agreed to the allied demands for delivery of 2,000,000 tons of coal monthly, yielding, however, only as the allies were fully prepared to announce definite plans for another occupation.

GIRLS DROWNED

Companions Unable to Help, Watch Them Struggle and Go Down

Frederick, Md., July 15.—Locked in each other's arms, the bodies of Elizabeth Ball and Elizabeth Plank, 17-year-old girl chums, were recovered yesterday from the Monocacy River at Buckeystown, six miles from Frederick.

The girls were drowned in seven feet of water while on a swimming party last night. Miss Ball was pulled under in an effort to save Miss Plant, who could not swim.

The Plant girl was the only member of the party who could not swim, but insisted on going into deep water, her companions say.

From the bank Anna Ball, a sister of one of the girls who were drowned, and Mary Butler, both of Frederick, watched their two chums go down, but could do nothing to help them.

GARRISON REFUSES TO YIELD

Prepares to Fight Forces of General Gonzales, Rebel Leader

Laredo, Texas, Juy 15.—The federal garrison at Nuevo Laredo, the Mexican town opposite this city, is sleeping on arms tonight following receipt of a demand for its surrender to anti government forces.

The demand, according to Mexican consul Saracho, was made by Gen. Ricardo Gonzales, who has several hundred disaffected soldiers and custom guards under his command. The demand, the consul said, met definite refusal on the part of Col. Ortego Garrison, commander at Nuevo Laredo.

Col. Ortego declared he would defend the town to the end with the 200 loyal troops in the garrison. Saracho said he did not know the exact number of the disloyal forces but that they included customs guards who revolted against the Carranza government at Nuevo Laredo last May. These guards, he said, had been employed in the de la Huerta government customs service up to a few days ago.

DEPORTED REDS EXECUTED

London, July 15.—Emma Goldman is authority for the statement that 200 "radicals," deported by the United States to Russia on the "Red Ark" Buford, have been shot by the bolshevists. Mrs. Philip Snowden, member of the British labor party delegation to Russia to investigate bolshevism, who has just returned to England, saw Miss Goldman in Petrograd. It was there, Mrs. Snowden states, that Miss Goldman told her of the shooting of the deportees.

Emma Goldman is sick of Russia and disguested with bolshevism, according to the British labor party investigator, and she signed herself in Mrs. Snowden's notebook: "A political refugee from America in Russia and afraid to talk fully, fearing spies." Mrs. Snowden says she doesn't know how Miss Goldman manages to earn her bread. "Bolshevism has brought to the common man hunger, cold and terror," says Mrs. Snowden.

DEMOCRATS AND LABOR

Federation of Labor Calls Platform Preferable to Republicans

The American Federation of Labor, in so far as its nonpartisan attitude permits is inclined to approve and go along with the principles of the Democratic platform as marking a "measure of progress not found in the platform of the Republican party."

This is the conclusion reached by Federation officials and made public in statement form yesterday, together with an analysis of the policies of interest and importance to labor enunciated by the Democrats. The analysis and the statement signed by Samuel Gompers, president, and Joseph Valentine, Wm. Green and Matthew Woll, vice presidents of the Federation, is similar to the one issued on the Democratic platform, June 12, and approved by the Montreal convention of the Federation.

The Republican platform was condemned as "defiant in defense of the enemies of labor,' and one that "proposes an industrial enslavement and an abrogation of rights as precious as life itself." The officials of the Federation declare that "it is only fair to say" that the Democratic platform is preferable from the standpoint of organized labor.

LABOR BLAMED

Cleveland Report Asserts Artisans Fail to Give Full Day's Work

Washington, July 15.—The report of the grand jury investigation of the housing situation in Cleveland, O., was received here yesterday by the National Association of Manufacturers.

In explaining the increase of building costs, the report says: "The fact that building operations for a period of almost three years were at a standstill naturally caused a shortage of houses, which resulted in higher rentals. Then when the building operations were resumed, the demand for materials of every kind was abnormally great."

The grand jury in closing, pointed out the growing tendency among mechanics, artisans, and laborers of all trades to perform less than a day's work. Impartial tests, the committee says, show that it takes carpenters twice as many hours today as it did five years ago to do the same work. Bricklayers lay less than half the number of bricks; paperhangers, painters and plasterers all do less than half the work in the same time that they did five years ago.

Grenades Used to Destroy Buildings Rioters Hold City in Terror

Trieste, July 15.—Unbridled vandalism reigned in Trieste Tuesday during anti-Slav demonstrations. Three persons were killed and scores were wounded, while damages estimated at more than one million dollars resulted from the burning or wrecking of buildings, including banks, stores and office property belonging to Jugoslavs.

Everything with a semblance of Jugoslav ownership was ruined. Bombs and inflammables were used by the mobs in their work.

The people were terror stricken by the explosion of the bombs, the reports of rifle firing and the long tongues of flame which rose from the burning buildings.

Francis Flynn, of San Antonio, Texas, was in a hotel which was burned, but escaped without injury.

BRICKLAYER TOO BUSY

Former Subject of Russia, Thon of Austria Told to Read United States Constitution

Philadelphia, July 15.—Simon Lazowick, international bricklayer and challenger for the allegiance changing championship, will have to study up on the Constitution, amendments and all, before he becomes a nephew of Uncle Sam.

Simon used to be a bricklayer in Russia and hailed the Czar as his "Little Father." Then they raised the wages of bricklayers in Austria and Simon became an accredited citizen of Austria and shouted for Franz Joseph with the rest of them. Then Simon came to the United States and is living at 2633 South Seventh street, getting about $12 a day for his bricklaying labors. Yesterday he asked Judge Thompson to make him an American citizen.

"Have you read the Constitution?" the Federal judge asked.

"No. Too busy making money," said Simon.

"Own any Liberty Bonds?" asked the court.

"No. I have been too sick to buy any."

"Get well. Read up on the Constitution and then come back." said Judge Thompson.

Cumberland Police Chief Asks Permission to Regulate Lunchrooms And Hotels

Cumberland, Md., July 15.—Chief of Police Oscar A. Eyerman has asked the City Council to draw up an ordinance giving the police authority to enter hotels, restaurants and lunchrooms in the event of disorder and to license and regulate such places. He says:

"A good many places which were formerly conducted as saloons have recently been converted into lunchrooms and soft drink establishments. A large number of these places are being used as meeting places for toughs, loafers, drunks and women of immoral character. These places keep open on Sundays, as well as every day in the week, which, in my opinion, makes them worse than saloons. Yesterday we arrested a number of men who came out of some of these places intoxicated. These same men were seen visiting drug stores and in most cases when they were brought into police headquarters they had Jamaica ginger in their possession. This ginger is mixed with the soft drinks which they purchase at the various places mentioned above and then our trouble begins."

TO DEPORT DEFECTIVES

Several Thousand Such Aliens Are Found in New York

New York, July 15.—Several thousand aliens in New York city are subject to deportation as mental defectives, according to inspectors from the Ellis Island immigration station who today completed an investigation among foreigners here.

The majority of the mental delinquents, inspectors said, were admitted to the United States upon bonds furnished by friends and relatives. The immigration law provides for deportation of aliens who become insane within five years after entering the country.

RICHMOND—"L'Apache"

Dorothy Dalton in her screen career has played every conceivable kind of role. And she has done them all with equal artistry. But in "L'Apache" at the Richmond tonight she is doing something she has never tried before—a Parisian apache, a dance-hall girl in the slums of Paris. Only she is really an American girl, forced into that life. The picture was produced under the supervision of Thomas H. Ince, and you know what that means. It's a Paramount-Artcraft.

INGOMAR—"World of Folly"

"A World of Folly," a powerful society drama, in which Vivian Rich appears as a Fox star, will be seen at the Ingomar Theatre tonight.

CAUSE OF MERDER

Chauffeur Had Hopeless Passion for Mrs. de Cordova, is Theory

New York, July 15.—Mrs. Arthur de Cordova, of 251 East Eighty-ninth street, was criminally assaulted by her chauffeur, Bernard H. Geissler, of 201 West Eighty-ninth street, before he shot and killed her and then committed suicide on a lonely road north of Stonington, Conn., according to statements made by Benjamin H. Hewett, town prosecutor of Stonington.

He declared that this fact became known through an examination of Mrs. de Cordova's body by Dr. I. S. Payne of Westerly. Finger marks, Mr. Hewett said, were visible on Mrs. de Cordova's throat and there were other indications that she had been attacked.

Good Light Lightens Labor : :

Lighting the kitchen is like lighting a factory. Good lighting quickens production, as the factory man would say. In other words, it makes work go faster without the expenditure of any more energy.

Of all places needing more light and better light the kitchen in most homes is one of the most important. And when you have doubled or trebled the light in your **work** rooms, try it also in your **living** rooms.

If you find that doubling or trebling the illumination there mean glaring light, **don't** cut down the amount of lighting again—**shade** the light better! Keep the direct rays from striking the eye. Throw some of the light to the ceiling and walls.

In every socket—in every room from cellar to garret—use only

EDISON MAZDA LAMPS

If you will do that, you will find that a great deal more light in the room is decorative, pleasing and restful. It's not the amount of LIGHT that you find irritating in some rooms, but the amount of GLARE.

OUR METER MEN REPORT THAT A NUMBER OF OUR CUSTOMERS ARE USING CARBON LAMPS. WHY NOT BE UP TO DATE? USE MAZDA LAMPS—BETTER LIGHT—LOWER BILLS.
